Trip Summary...

EXPEDITION: NO. 006

Join me on my second & final group trip this summer to one of the most breathtaking countries in the world, Norway. Over the course of 7 nights / 8 days, we'll explore this Nordic country from South to North, marveling in some of the most awe-inspiring landscapes our world has to offer, making connections to last a lifetime.

We'll begin our trip in Stavanger, a storybook harbor town, where we'll hike to Norway's most famous viewpoint (Pulpit Rock) overlooking the fjords and peruse the shutter-style old town.

Next, we'll make our way up the coast to Bergen, Norway's 2nd largest city situated on the Norwegian Sea. Here we'll do a private sail in the sea, private sauna and swim, a short hike up to a viewpoint overlooking the city, shop, and enjoy sunset with a bottle (or two) of wine.

Finally, we'll fly north over the Arctic Circle to Evenes, where we'll begin a 4-day / 3-night road-trip through the otherworldly Lofoten Islands. Lofoten is an archipelago that stretches out along a peninsula far off the coast into the pristine waters of the North Sea and may only be described as one of the most stunning stretches of land in the entire world.

Stavanger

Our trip begins in Stavanger, the de facto capital of Norway's South. In Stavanger we'll adjust to the time zone, peruse the old shutter-board streets, and most notably hike Pulpit Rock, which is Norway's most iconic hike.
